

AIDEN

MODERN LUXURY WITH A CASUAL ELEGANCE.

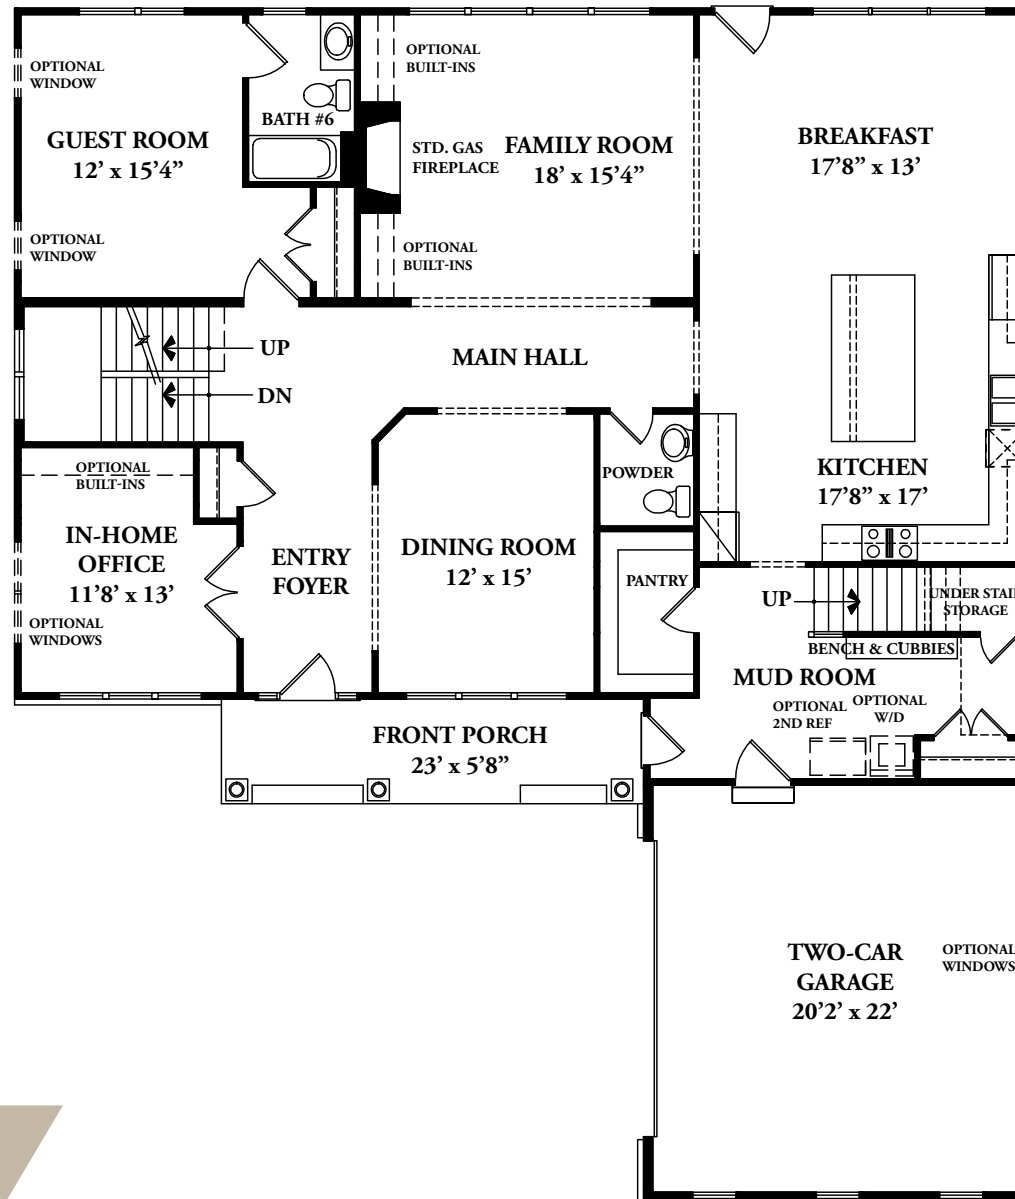

AIDEN

Special care has been given in the design of this new plan. Evoking a casual elegance there is a fluidity between the rooms, offering both private family/guest spaces as well as gathering areas conducive to informal gatherings. From the gallery foyer, you'll find a private in-home office, formal dining room and light-filled family room with gas fireplace. Cooks will enjoy a well-appointed kitchen with three walls of custom cabinetry and large informal dining area great for entertaining. A private guest suite with full bath completes the main level.

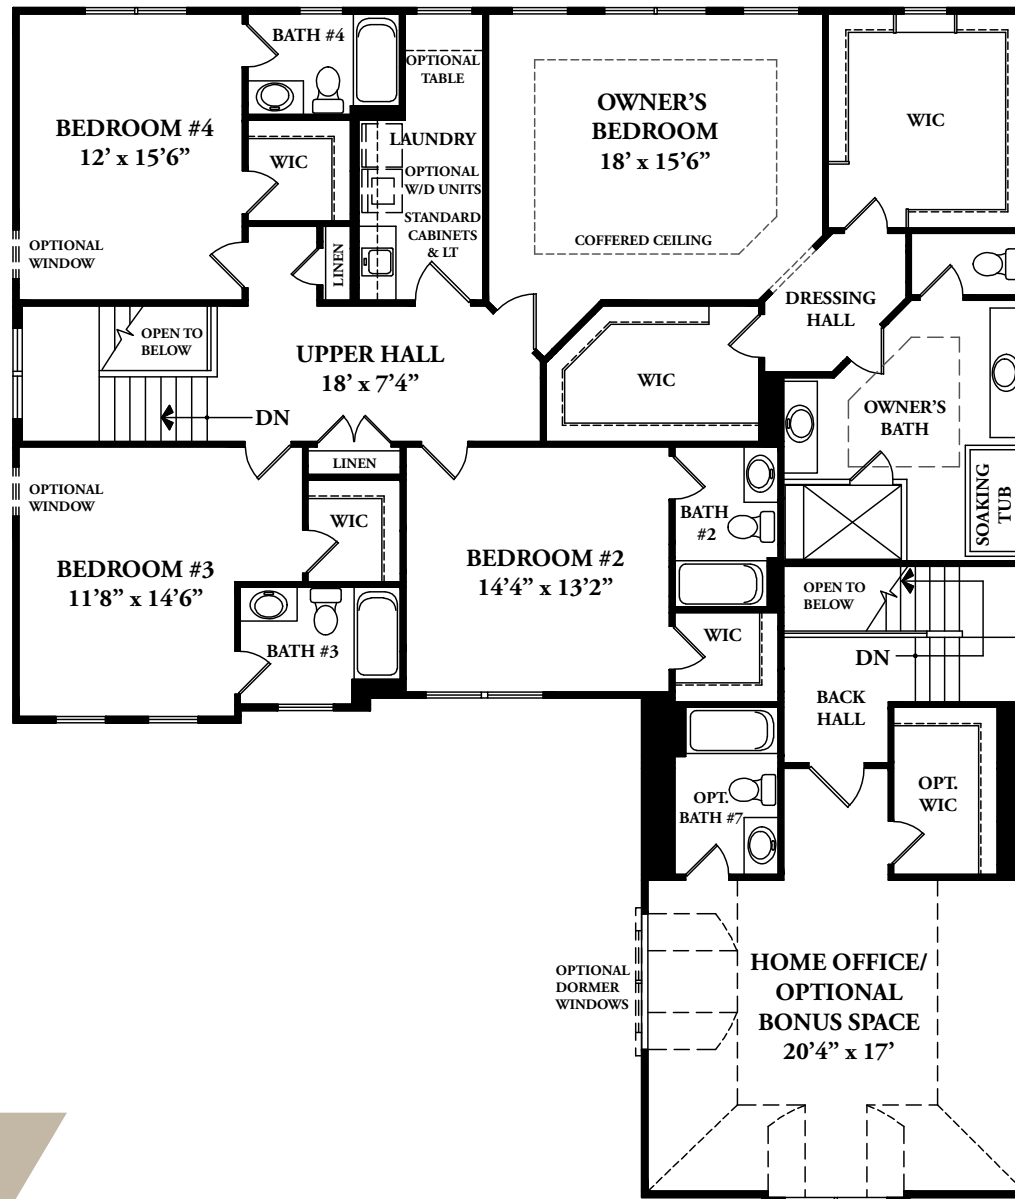

Upstairs, each bedroom has a private bathroom and walk-in closet. A spacious owner's suite includes two large walk-in closets, dressing area and deluxe bath with separate shower, soaking tub and water closet. The optional bonus room, accessed from a separate stair off the main level mud room, has a private bathroom and is a great space for guests, in-laws or hobby/office space. Customize your lower level with a rec room, exercise space, theater and bedroom/bath.
