

AIDEN II

MODERN LUXURY WITH A CASUAL ELEGANCE.

AIDEN II

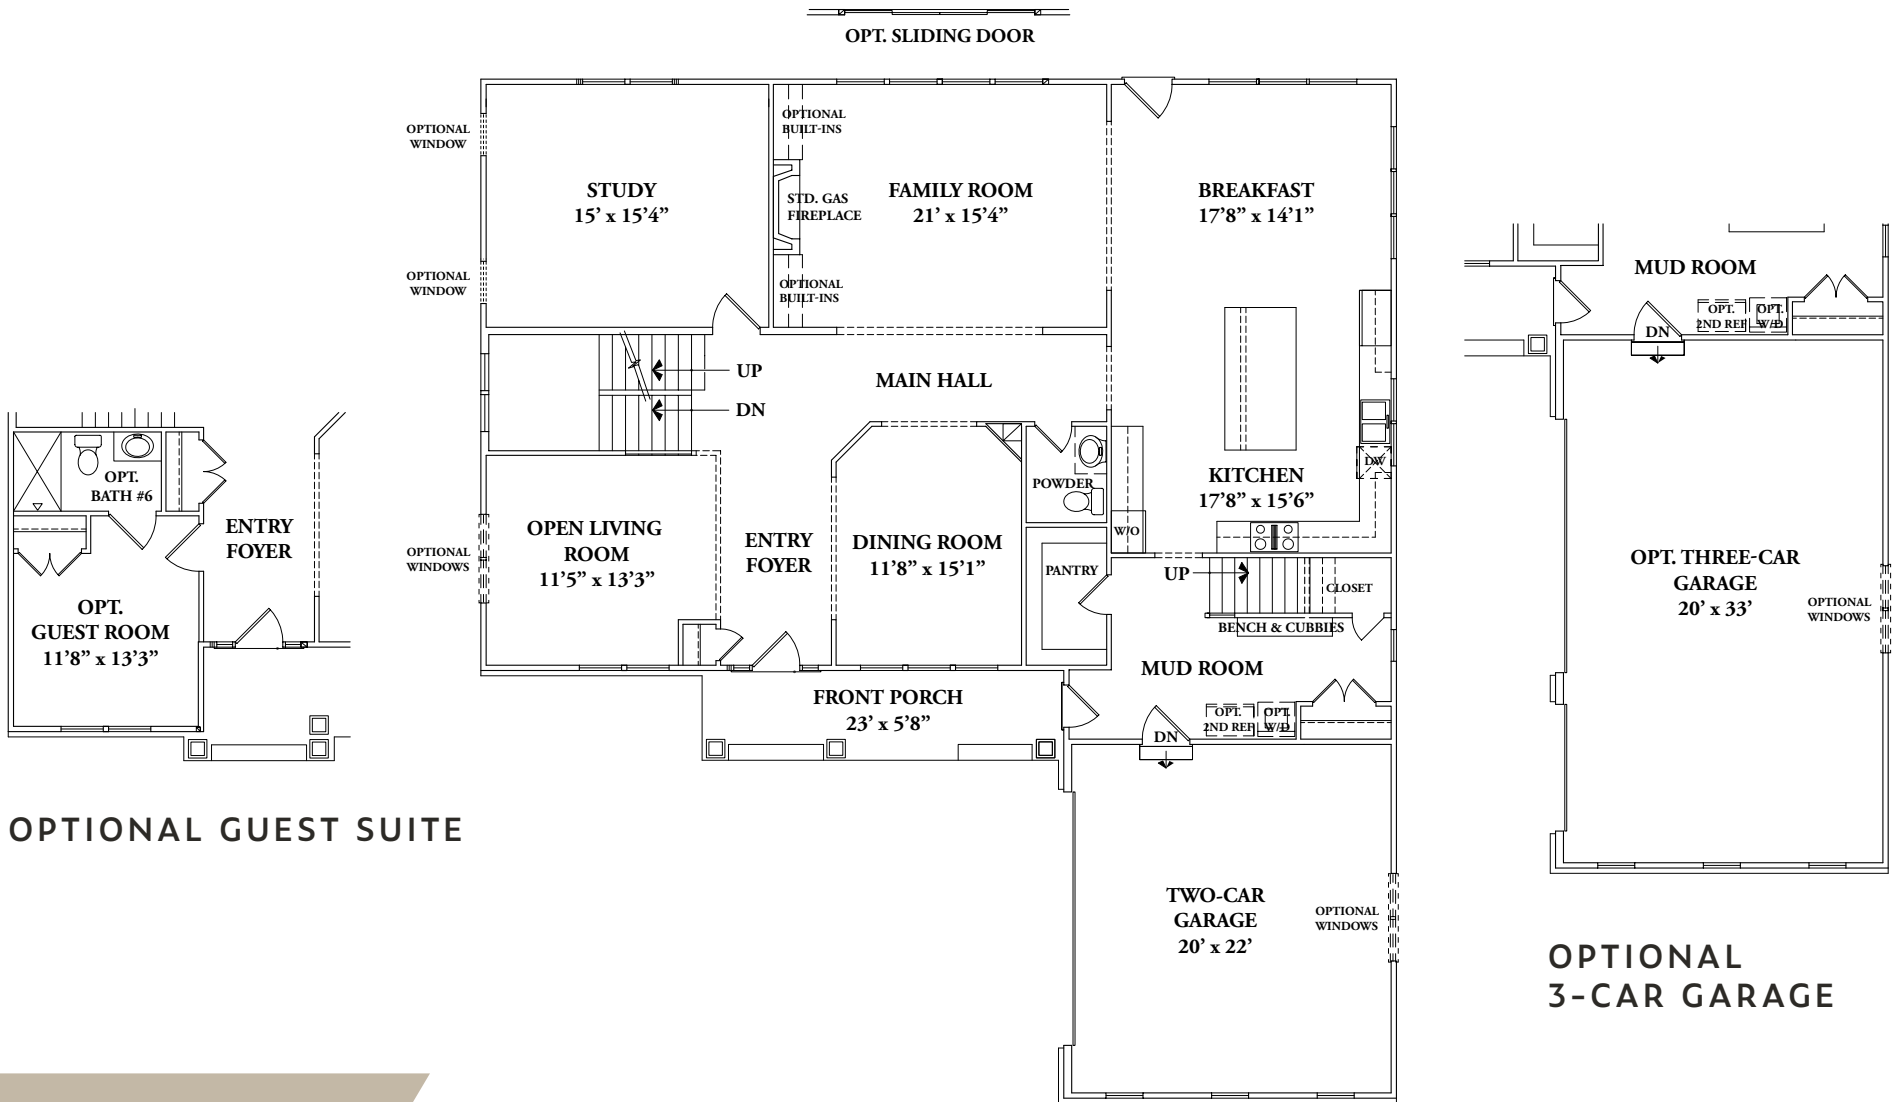

Special care has been given in the design of this new plan. Evoking a casual elegance there is a fluidity between the rooms, offering both private family/guest spaces as well as gathering areas conducive to informal gatherings. From the gallery foyer, you'll find a private in-home office, formal dining room and light-filled family room with gas fireplace. Cooks will enjoy a well-appointed kitchen with three walls of custom cabinetry and large informal dining area great for entertaining. An optional private guest suite with full bath completes the main level. Upstairs, each bedroom has a private bathroom and walk-in closet. A spacious owner's suite includes two large walk-in closets, dressing area and deluxe bath with separate shower, soaking tub and water closet.

The optional bonus room, accessed from a separate stair off the main level mud room, has a private bathroom and is a great space for guests, in-laws or hobby/office space. Customize your lower level with a rec room, exercise space, theater and bedroom/bath.
